CRUSADERS

ATC, 1st Battalion, 81st Armor Regiment transforms volunteers into disciplined, physically fit, confident, and competent 91A mechanics, who are adaptive, innovative, grounded in the Army Values and ready to contribute as a member of a team upon entering the operational force.

ABRAMS SYSTEM MAINTAINER

For a 91A Abrams Tanks System Maintainers Advanced Individual Training (AIT) requires 16 weeks of instruction including: classroom instruction, hands-on instruction, and field maintenance training. Skill sets your Soldiers will learn include electronic and mechanical principles and concepts, use of electrical and mechanical test equipment, use of schematics, and testing and maintenance of weapons systems.
